... Administrative Staff.

1. Consequent on the reorganization of the staff at army headquarters which has taken place since the issue of India Army Order No. 246 of 1904, and the formation of a general staff in India, *vide* India Army Order No. of 1910 it is now possible to take a further step in the organization of the staffs of subordinate commands.

2. The general principle to be followed is, that the division of duties should correspond with that at army headquarters. The administrative staff in divisions will therefore be divided, as at headquarters, into the Adjutant General's staff and the Quartermaster General's staff, and these staffs will deal with the subjects which are in the province of the Adjutant General and the Quartermaster General respectively as given in Appendix A to this order. The table annexed to India Army Order No. 246 of 1904 is cancelled.

3. The distribution of the present "routine" staff appointments between the Adjutant General's and Quartermaster General's staffs is shown in Appendix B. In this brigade majors and staff captains are shown under the heading of "Adjutant General's Staff." But, except in the cases of defended ports and independent brigades, the distinction between the different branches of the staff will not extend lower than the divisional staff, and brigade majors will deal with all branches of the staff work of their brigades.

4. Specially meritorious service on the administrative staff may be recognised by accelerated promotion. It will rest with the Commander-in-Chief to recommend officers on this account for such promotion, whether they have been employed on administrative staff duties at army headquarters, or in divisions, etc. The accelerated promotion will usually be granted in the form of a brevet up to the rank of lieutenant-colonel, and above that rank by selection for the rank of substantive colonel.

- (b) the grant of a pension of Rs. 20 per mensem after 32 years' service, with the honorary rank of Jemadar.

2. It is also notified that the pay of Farrier majors in silladar regiments of the late Bombay Command will be reduced from Rs. 57 to Rs. 45 per mensem each, as present incumbents die out or are promoted.

182. **Gymnastics.**—With reference to India Army Order No. 36, dated 17th January 1910, the rates of extra duty pay therein laid down also apply to Assistant Instructors at Hill Depôts and Sanitaria.

183. **Languages—Rewards (Japanese).**—It is notified for information that the claims of Indian Army officers deputed to Japan for two years to study the language under paragraph 972-A., Army Regulations, India, Volume II, for the rewards due to them under paragraph 378-A., Army Regulations, India, Volume I, for passing the intermediate and final examinations in Japanese should invariably be supported by a certificate from the Military Attaché at Tokio to the effect that they have duly qualified at those examinations.

tions which are recognised by the Government of India as suitable for their reception, and which are prepared to receive and maintain them on payment of a suitable capitation allowance. This allowance will be fixed separately for each institution, but will not exceed Rs. 25 per mensem for each widow, and Rs. 10 for each child. (Grants already made to certain institutions in excess of this reduced maximum for children, under existing rules, will, however, remain in force).

28th Mar.
1910.

This reduced allowance for children will, hereafter, continue to be paid only for the same period as is admissible under paragraph 885, Army Regulations, India, Volume I, *viz.*, up to 16 years of age (extensible to girls, up to 18 years in special cases).

3. Applications for admission into any recognised institutions, giving full particulars of each case and containing proof that the person or persons are of European parentage as defined in Army Regulations, India, Volume II, should be submitted either by Collectors, Deputy Commissioners, Officers Commanding Regiments, or Clergymen, to the Secretary to the Government of India, Army Department, *through the local military authorities and the General Officer Commanding the Division concerned*. The latter, while reporting fully on the merits of each particular case, should also specify whether room in a selected institution is available, and what capitation grant, within the maxima specified in paragraph 2, will be required.

These rules are, as regards orphan children, to be strictly reserved for suitable and eligible cases which do not come within the application of paragraph 885, *et. seq.*, Army Regulations, India, Volume I, and the question of the applicability of the latter regulations should always be considered first. The birth of a child, by a wife who was on the married strength, after the father has become non-effective will not be considered, in itself, a sufficient reason for debarring the child from the benefits of the Shelter Scheme rules, if otherwise eligible.

4. In cases where shelter is required for a person in an institution which has not up till then been recognised by the Government of India, the application should be submitted by the General Officer Commanding the Division

through the Local Government concerned C report as to its suitability for the purpose.

When an application is sanctioned, the institution concerned will be informed, and will recover from the Military Accounts Department the allowance due.

5. Children of a school-going age will be sent to an orphanage, or boarding school, of suitable denomination which receives poor European children, or to one of the Lawrence Military Asylums. A capitation fee, not exceeding Rs. 10 a month, will be granted for each child admitted to an institution other than the Lawrence Military Asylums.

6. The cost of conveyance, when necessary, will be borne by the State.

7. A list of the institutions which have been recognised by the Government of India up to date forms an annexure to this order. All future corrections or additions thereto will be published in India Army Orders.

8. It is requested that the utmost publicity may be given to these orders.

185. Dress—Volunteer Officers.—It is notified for information that Volunteer officers in possession of the Full Dress and Mess Dress uniform, prescribed in paragraphs 171 to 185, Army Regulations, India, Volume IX, will wear such uniform on all occasions when officers of the Regular Forces wear full dress, or mess dress, under the provisions of King's Regulations (paragraph 1710, Table A.).

2. Volunteer officers who held official appointments for which a uniform is prescribed may, however, wear such uniform, or military uniform, at option.

186. Stores for Army Signalling Schools.—Inspectors of Army Signalling Schools will estimate their requirements of stores for the ensuing year annually on the 1st of May, and after deducting any of the stores which may be in their possession or due to them, will forward such requisitions to the Inspectors General of Ordnance concerned, and the stores will be included in the Ordnance Department Indent. Arrangements will then be made with

the Director General of Stores for the stores to be consigned direct to the schools concerned, the cost of the stores being met from the Ordnance Home Estimates.

Absorption of Acting Paymasters.—Consequent on the introduction of the revised system for the preparation of the accounts of British units, under which the accounts are prepared in the Military Accounts Department, the Government of India have decided, with the approval of the Right Hon'ble the Secretary of State for India, to reduce the establishment of all British Cavalry Regiments and Infantry Battalions on the Indian establishment by the extra subaltern allowed for pay duties under clause 124 of India Army Circulars of 1890. These extra subalterns will be absorbed as opportunity offers as regiments and battalions are brought under the new system. Until absorption they will, from the date the unit is brought under the new system, be borne supernumerary to the establishment, and will cease to draw the allowances of an Acting Paymaster from that date. A limited number of Acting Paymasters will, however, be employed temporarily to assist in Divisional Disbursing Offices and their absorption will be delayed until such time as their services can be spared for regimental duty. These officers will continue to draw the allowance of Rs. 150 per mensem allowed under paragraph 215, Army Regulations, India, Volume I, while so employed.

India Army Circulars, Clause 124 of 1890, is cancelled. The necessary amendments to the establishments detailed in Army Tables will be made in due course.

* 202. Organization of the General Staff.—

1. The general staff of the army falls into two principal divisions, *viz.* :—

- (a) The general staff at Army Head Quarters,
- (b) The general staff in armies, divisions, etc.

2. The functions of the former are to advise on the strategical distribution of the army, to supervise the education of officers, and the training and preparation of the army for war, to study military schemes offensive and defensive, to collect and collate military intelligence, to direct the general policy in army matters, and to secure continuity of action in the execution of that policy.

* Issued as a Special India Army Order, dated 19th March 1910.

4th April
1910.

3. The functions of the latter are to assist the officers on whose staffs they are serving in promoting military efficiency, especially in regard to the education of officers and the training of the troops, and to aid them in carrying out the policy prescribed by Army Head Quarters.

4. With these objects in view, the general staff will be drawn from the officers of the army who may be considered most likely to prove capable of forming a school of progressive military thought.

5. The detailed duties which fall to the lot of the general staff, in furtherance of these objects, are enumerated in Appendix A.

6. The establishment of the general staff, i.e., the detailed list of those posts which will constitute the general staff appointments of the army in India, is given in Appendix B.

7. Appointments to the general staff will be made by the Commander-in-Chief under India Army Regulations.

8. For the efficient performance of general staff duties special aptitude and extensive and varied military knowledge are required, including a knowledge of the principles of the administration and maintenance of the army in peace and war. With a view to ensuring the possession of the necessary military knowledge, officers for employment on the general staff will, as a rule, be chosen from those who have graduated at a staff college, or who have proved their ability and qualifications on the staff.

9. All appointments to the general staff will be for four years, after which an officer if below the rank of substantive lieutenant-colonel will return to regimental duty for a period of not less than one year. In exceptional cases the four years tenure may be extended in the interests of the service, and under similar exceptional conditions a fresh appointment may be made irrespective of the time already spent upon the staff or in the performance of other duties.

10. All first appointments to the general staff will be on probation for the first year. If at the conclusion of such probationary period an officer is retained in his general staff appointment, his tenure of four years will include a probationary period, and will not be in addition to it.

officer below the rank of lieutenant-colonel who does not hold a staff college certificate, but who is considered by the Commander-in-Chief to be specially qualified by service on the staff for employment on the general staff, may be sent for one year to a staff college, where he shall be admitted without entrance examination.

202

4th April
1910.

11. In addition to the general staff appointments specified in Appendix B, officers may be attached to the general staff at Army Head Quarters, and occasionally also at the head quarters of armies, divisions, etc., in excess of the establishment specified in that appendix.

12. Specially meritorious service on the general staff may be recognised by accelerated promotion. It will rest with the Commander-in-Chief to recommend officers on this account for such promotion, whether they have been employed on general staff duties at Army Head Quarters, or in armies, divisions, etc. The accelerated promotion will usually be granted in the form of a brevet up to the rank of lieutenant-colonel, and above that rank by selection for the rank of substantive colonel.

Adjutant-General in India.

1. Consequent on the re-organization of the staff at Army Head Quarters which has taken place since the issue of India Army Order No. 245 of 1904, and the formation of a general staff in India, *vide* India Army Order No. of 1910, it is now possible to take a further step in the organization of the staffs of subordinate commands.

2. The general principle to be followed is that the division of duties should correspond with that at Army Head Quarters. The administrative staff in divisions will therefore be divided, as at head quarters, into the Adjutant General's staff and the Quartermaster General's staff, and these staffs will deal with the subjects which are in the province of the Adjutant General and the Quartermaster General, respectively, as given in Appendix A to this order. The table annexed to India Army Order No. 246 of 1904 is cancelled.

3. The distribution of the present "routine" staff appointments between the Adjutant General's and Quartermaster General's staffs is shown in Appendix B. In this, brigade majors and staff captains are shown under the heading of "Adjutant General's Staff." But, except in the cases of defended ports and independent brigades, the distinction between the different branches of the staff will not extend lower than the divisional staff, and brigade majors will deal with all branches of the staff work of their brigades.

4. Specially meritorious service on the administrative staff may be recognised by accelerated promotion. It will rest with the Commander-in-Chief to recommend officers on this account for such promotion, whether they have been employed on administrative staff duties at Army Head Quarters, or in divisions, etc. The accelerated promotion will usually be granted in the form of a brevet up to the rank of lieutenant-colonel, and above that rank by selection for the rank of substantive colonel.

The Medical officer will be attached only, his duties

connection therewith being in addition to his normal duties. He will be found from the existing cadre without replacement. The Veterinary officer will be deputed to visit the School, from a neighbouring station. The staff pay of all officers, with the exception of the Commandant, who will receive a consolidated salary, will carry with it exchange compensation.

5. The Sergeant-Major, Squadron Sergeant-Major Ins- tructors in fencing and gymnastics, Squadron Sergeant-Major Rough Riders and Barrier Quartermaster Sergeant will be appointed for three years extensible to four.

The holders of these appointments will be seconded in their units. The same conditions will apply to the Indian ranks appointed to the permanent staff. The positions of Sergeant-Major and Barrier Quartermaster Sergeant will be "appointments" only, not "ranks," and the non-commissioned officers holding them will be selected Sergeants or Staff Sergeants of Cavalry or Artillery, who, on return to regimental duty, will revert to their permanent ranks. They will receive quarterly clothing allowances at the rates prescribed for the ranks they temporarily hold.

6. The Sergeant, Corporals, Assistant Saddler and Corporal Shoemsmith will be appointed for one year only. They will be replaced in their units in the ranks they hold, and the resulting vacancies in the lower ranks will be filled up, but the strength of the regiment or battery will, during their absence, be maintained at one Private or Gunner less than the authorised establishment. The Chief Clerk will be found from the cadre of the Indian Miscellaneous List. He will not be appointed for any fixed tenure:

As the education of the trained and partly trained horses is completed they will be drafted to British Cavalry regiments or sold as officers' chargers under the usual conditions; and will be replaced by untrained, or partly trained, horses from the Remount Depôts.

9. Officers and others appointed to the staff of the School and those selected to attend for instruction will be granted free passages, under existing rules, for themselves and their chargers. The families of the permanent staff of the School will be allowed free passage to and from Saugor under the usual conditions. The Adjutant of the School is authorised to issue passage warrants and credit notes by rail, river and road.

10. *Cavalry Subalterns.*—A cavalry subaltern detailed for the course must be a thoroughly efficient regimental officer of not less than three years' service, of good physique, a good horseman, must have a good knowledge of practical field sketching and map reading. Each cavalry subaltern attending the course will bring with him to the School his two chargers.

11. *British Non-Commissioned Officers.*—Commanding Officers will be careful to select only those non-commissioned officers who are, in their opinion, likely to prove the most efficient instructors on return to their units. They should be selected for their mental, as well as their physical capacity, and should be of such an educational standard as will enable them to benefit by the course of instruction.

Each non-commissioned officer will bring his arms, personal regimental equipment and saddlery with him to the School.

12. *Indian Officers and Non-Commissioned Officers.*—The general qualifications required in other classes will be applicable, only such non-commissioned officers being selected as are likely to prove efficient instructors on return to their units. 521. Documents of Soldiers proceeding Home.—Com-
plaints having been received from the Embarking authori-
ties in India and the War Office, regarding the incomplete
preparation and irregular disposal of the documents of
soldiers proceeding to the United Kingdom for discharge,
transfer to the army reserve, furlough, etc., during the past
trooping season, resulting in extra clerical labour and in-
convenience to all concerned, the attention of Officers Com-
manding and General Officers Commanding is invited to
the detailed instructions on the subject, which are laid
down in the King's Regulations and the Regulations for
the discharge of soldiers of the British Forces serving in
India.

2. The following are some of the more common causes
of complaint:—

many instances was not rendered at all or was
placed with the regimental documents of the men
instead of being kept separately (Paragraph 29,
Discharge Regulations, India.)
- (ii) Officers and others not knowing what to do with
embarkation rolls or their object. (Paragraph 29,
Discharge Regulations, India.)
- (iii) Failure to furnish the Embarking Staff Officer with
embarkation rolls 7 clear days before the sailing
of the transport. (Paragraph 44, Discharge Regu-
lations, India.)
- (iv) Failure to include Departmental Non-Commissioned
Officers on the embarkation roll. (Paragraph 44
(c), Discharge Regulations, India.)
- (v) Incorrect preparation of India Army Form T-1737.
(Paragraph 44 (a), Regulations for the discharge
of soldiers of the British Forces serving in India.)
- (vi) Documents of invalids who arrive by troop train
not in possession of the Assistant Surgeon who
accompanies the train. (Paragraph 24, Discharge
Regulations, India.)
- (vii) Documents arriving home in an incomplete state
or improperly prepared. (King's Regulations and
Discharge Regulations, India.)

(vii) Failure to make R. T. R.'s on account of travel-
ing expenses of furloughed men, payable to the
Embarking Staff Officer, and delay in the des-
patch of remittances. (India Army Order No. 174
of 1908 and I. A. F. L. 1174 and Adjutant-General
in India's letter No. 22-A, Discharges—British
Army, 1909, dated 23rd September 1909.)
(ix) Bad condition of public clothing taken by units
and details leaving India. (India Army Order
No. 550 of 1909; and paragraph 58, Army Regula-
tions, India, Volume XI.)

522. Discharge Regulations, India.—The following
addition to the "Regulations for the discharge of soldiers
of the British Forces serving in India" has been approved
by the Government of India:—

Paragraph 90, fourth line.—After the word "country",
insert "The certificate should also show that prospective
employers are aware of their liability under Section 31 of
the European Vagrancy Act (Act IX of 1874)."

2. The liability is that whenever a non-commissioned
officer or private leaves the Army in India, under an en-
gagement to serve any person, company, association or
body of persons in any capacity, and becomes chargeable
to the State as a vagrant within one year after his leaving
the Army, then the person, company, etc., to serve whom
he has left the Army, shall be liable to pay to Govern-
ment the cost of his removal under the "European Vag-
rant" charge incurred by the State in re-

Mess Tins, Mess Tin Covers and Straps will in future be accounted for on Receipt and Delivery Vouchers, which will be included with the documents detailed in Appendix II of the Regulations for the Discharge of Soldiers of the British Forces serving in India.

Steps are being taken to amend the Regulations accordingly. India Army Order No. 896 of 1904 is hereby cancelled.

562. Correspondence.—The attention of the Government of India has again been called to the practice which prevails in many Military offices of issuing official communications enclosed in envelopes disproportionately large as compared with the size of the papers they contain. Instances have also been brought to notice in which unimportant communications were enclosed in expensive envelopes of hand-made paper instead of in country made envelopes which are much cheaper and more suitable. As such practices entail unnecessary expenditure, attention is invited to the necessity for exercising stricter and closer supervision in all military offices in this respect.

563. Artillery—Equipment.—The Government of India have sanctioned the maintenance, as "peace" equipment, of the meters at present authorised for the staff of the Royal Field Artillery Brigades on the higher establishment and the Heavy Artillery Group at Nowgong.

Entries.

The following are the complete Army Rifle Association rules, as modified, for the conduct of the match in India:—

1. *Coaching.*—No coaching at the firing point is permitted during the match, but competitors may confer together when firing sighting shots as a preliminary to rapid firing.

The match may be fired at competitor's own stations or at any stations within the Divisions, as may be decided by General Officers Commanding, Divisions or Independent Brigades, but no travelling expenses on this account are admissible as a charge against the State. The results of the competition will be submitted immediately after completion to General Officers Commanding, Divisions and Independent Brigades, who will collect them and submit the three best results in detail to the Chief of the General Staff, Simla.

603. Care of Ammunition on Rifle Ranges.—It has been brought to notice that .303 inch ball ammunition is often exposed on the range, at the firing point, to the direct rays of the sun, thus causing the temperature of the cordite charge to run far above normal (85° Far.).

An increased temperature results in increased pressures and velocity which it is desirable to avoid both from the point of view of accurate shooting and from that of avoiding defects appearing in the ammunition such as splits in the cartridge case.

17th Oct.
1910.

Ammunition therefore, whether in boxes, packets or loose, should invariably be kept as cool as possible and in the shade at the firing point until actually required for expenditure.

The above applies also to other natures of cordite filled small arms ammunition.

604. Care of Examination Papers.—Some instances having occurred recently in which the sealed covers of examination papers have been opened thoughtlessly or by accident before the exact time fixed for that examination, the attention of all concerned is directed to the necessity for rigid and exact compliance with the procedure laid down in paragraphs 492 and 493, Army Regulations, India, Volume II.

Carelessness in this respect may necessitate the examination in question being cancelled throughout India, and may thereby inflict hardship upon many candidates.

I.—The Manufacture Section including the Ordnance Factories.

II.—The Ordnance Stores Section including all Arsenals and Depôts for the distribution of stores.

III.—The Ordnance Inspection Section.

As regards the first of these, the General Officers Commanding Divisions and Brigades are concerned, as at present, only with questions of military discipline and Defence.

As regards the second, one object of the reorganisation is to define more closely the responsibility of General Officers Commanding of Divisions in respect to Ordnance matters, and to attach to their Head Quarters Ordnance Officers who will be in a position to settle, under their orders, the greater number of the questions which arise as between the troops and the Ordnance Store Supply. To this end an officer styled Assistant Director of Ordnance Stores will be attached to the Head Quarters of each General Officer Commanding Division. The rules to guide the powers of the General Officer Commanding and the duties of the Assistant Directors of Ordnance Stores are laid down in a pamphlet containing "Provisional orders consequent upon the Reorganisation of the Ordnance Department", which will be issued to all concerned by the Director-General of Ordnance in India.

As regards the Ordnance Inspection Section—its duties are of a dual nature—

- (a) Concern with the quality of stores purchased or manufactured for storage in Arsenals, for which the Section is responsible to the Director-General of Ordnance.
- (b) Concern with the efficiency of equipment in the possession of troops, for which the Section is responsible to the General Officers Commanding Divisions.

7th Nov.
1910.

The officers of the Army Ordnance Corps (Inspector of Ordnance Machinery), hitherto attached to the Adjutant General's Branch are under this reorganisation transferred to the Branch of the Director-General of Ordnance and will be attached to the Section of the Director of Ordnance Inspection and will henceforth act under his orders, subject to the regulations approved from time to time to guide the officers of the Inspection Section.

The Artificers of the Army Ordnance Corps, at present doing duty with the Royal Garrison Artillery, will likewise be attached to the Director of Ordnance Inspection.

It is further notified that in those cases wherein General Officers Commanding Divisions are unable to settle an Ordnance question either under their own powers, or by reference to the Directors of Ordnance Stores or Ordnance Inspection, they should address their statement or complaint to the Director-General of Ordnance, Army Head Quarters, who will deal with them under the regulations governing the Army Head Quarter Staff.

(f) Sanitation of camps of hired transport, camp bazaars, railway stations, camps and sites for troops passing through.

(g) Sanitation of routes between camps or posts, and the disposal of carcases, etc.

(h) Carrying out sanitary schemes which are beyond the power of regimental sanitary detachments.

(i) Acting as sanitary police.

7. On mobilisation being ordered, or before this if necessary, General Officers Commanding Divisions will be informed of the number of sanitary sections to be furnished, the destination of each and the required date of its arrival there. On receipt of these orders the requisite native establishment for each section will be entertained—preliminary arrangements for this having been already made by General Officers Commanding Divisions—and the sections formed, equipped and despatched under their own medical officers. On arrival at destinations the sections will at once assume such sanitary duties as may be ordered and will receive any necessary transport.

It is of the utmost importance that sanitary sections should have everything in readiness before main bodies of troops, etc., arrive at the several camps and they should therefore invariably proceed with the most advanced troops.

Claims for passage money must be in India Army Form T-1717 and should be submitted for audit and payment to the Deputy Controller of Military Accounts of the Division in which the port of embarkation is situated. These claims will be paid by the latter, either to the officers themselves, or to any recognised Army Agent in whose favour they may be endorsed for payment. - I. Any such officer, who is recommended for the purpose by his Commanding officer may apply to a Conservator* of Forests in the province in which he desires to be employed for permission to follow the course of instruction in the Ranger class at the Imperial Forest College at Dehra Dun with a view to secure, after successfully passing through the College and obtaining a certificate, an appointment as Forest Ranger in the Subordinate Forest Service.

II. The Conservator to whom application is made must be satisfied—

- (a) that the candidate will not be more than 30 years of age when he enters the College ;
- (b) that he has been sufficiently well educated, especially in Mathematics and English, to enable him to follow the College course with advantage and to obtain a Ranger's certificate ;
- (c) that he is of good constitution and active habits, and possesses fair ability and powers of observation, as well as such physical qualifications as are required for a good Forest officer.

III. If the conditions in the preceding rule are satisfied and the candidate is accepted by a Local Government for an appointment in the Subordinate Forest Service, he may be admitted to the College, and be allowed to receive the stipend admissible to Government probationary students under rule 12 (*vii*) of the Forest College rules. While at the College, with the exception that he need not attend drills, he will in all respects be subject to the rules for the time being in force, a copy of which can be obtained from the Principal of that institution.

IV. On obtaining a certificate at the conclusion of the Ranger's course the candidate will be eligible to be appointed as Ranger. On being so appointed he will be subject, as regards future promotion, to the regulations of the Forest Service for the time being. As regards other conditions of service, the candidate either shall, on obtaining his appointment to the Forest Department, take his discharge from the Army, and then 12 months of his period of instruction at the Forest College will count as service under Article 356, rule (3) of the Civil Service Regulations, 5th edition, or he may serve in the Forest Department and be transferred to the Native Unattached List under the conditions in Army Regulations, India, Volume II, paragraph 388, and in that case he will qualify for the special rates of pension admissible under military regulations [*see* Army Regulations, India, Volume I, paragraph 1044 (*a*) (*v*)].

V. During the College course the candidate will be seconded in his corps, which he shall rejoin if he fails in obtaining a certificate.
